Meet the 2017 Warrior Racing Team!

Special thank you to Dotti and Dave Lovins-Wilusz for taking our team pictures!

Faculty Adviser: Dr. Michelle Grimm
Warrior Racing Legacy Advisors: Adam Niner, Kristina Vujic
President: Justin Bekker
Business: Filippo Caro, Arjun Venugopal, Jake Sippl, Anu Anne John, Zach Ubl
Chassis: Richard LePage, Brandon Horsch, Andrew Cucchiara, Elliot Carter, Vishal Jaykumar, Sai Kamble, Nitin Kumar, Sai Ganesh, Sai Pranav Ongole

Issue 28
January 2017
Chief Editor Justin Bekker
Contributors: Kristina Vujic, Adam Niner
Behind the Scenes with Autoweek Magazine
Warrior Racing was invited to the North American International Auto Show by Autoweek Magazine who held their annual “behind the scenes tour.” Many team members attended the event, which was for some their first experience at the auto show. Team members were given the opportunity to ask editors from the magazine questions about the vehicles shown, and enjoyed the perks of being able to go during industry preview days. The team was also treated to dinner after the show, and were given the option to subscribe to Autoweek. We would like to thank Autoweek for putting on the tour and for inviting our team to participate!

Winter Break Manufacturing!
Over the winter break, our team was hard at work machining components for RW11. The most notable was the frame. This would not have been possible without the support from our friends at Lawrence Tech University who allowed us to use their shop to jig up our frame and weld it. Andrew Cucchiara, Richard LePage and Brandon Horsch did much of the setup, then the frame was welded mainly by Mohammed Kakli with help from Elliot Carter. We would like to thank Randy Krol for lending his services and helping our team weld the rest of the frame. With the completion of the frame, the team can begin placing components on the frame and RW11 will be on its way! The frame is not the only component that was machined, bellcranks, and the brake and throttle pedals have also been manufactured since December.

Warrior Racing Events
Kart2Kart Fundraiser
TBD
We would like to thank Detroit Tube Products for bending the front roll hoop for our frame! DTP was kind enough to bend three front roll hoops, one for RW11 and two extras to be used for testing out different impact attenuators. Detroit Tube Products has great service and got our bent tubes back to us within a couple of days!

Thank you Edward Duffy! For the past couple of seasons Edward Duffy has supplied steel tubing that has turned into suspension components, push bars, frame members and many more parts! We would like to thank them for their continued support of our team!

Welcome new sponsor Advanced Cable Ties!

We are very excited to welcome this new sponsor who has supported us by donating a number of different sized cable ties to be used to secure electrical components on RW11.

https://www.advancedcableties.com/

We would like to thank TW Metals for supply us with aluminum! TW has supplied us with aluminum tubing for cooling and intake, billets for wheel centers and round stock for wheel nuts!

Thank you Dremel for supporting our team with this amazing Dremel 8220. This 12 volt rotary tool will sure come in handy when we need to get into those hard to reach places.

Our team’s success is made possible through the generous donations and support from the following companies. Without them our team would not have the resources needed to provide invaluable hands on experience and to manufacture our formula cars. From all members of our team, thank you Warrior Racing sponsors!
